Customer Relationship Manager

Description

We are looking for an experienced customer relationship manager to be responsible for engaging with our models by building and preserving trusting relationships. The customer relationship manager will constantly build positive relationships with new models.

To be successful as a customer relationship manager, you should possess very good communication skills and maintain the core values of our agency.

Responsibilities

- Building and maintaining profitable relationships with our models.
- Overseeing the relationship with models handled by your team.
- Resolving models complaints quickly and efficiently.
- Understanding models individual needs and addressing these.
- Having calls with our models to build a last longing relationship.

Qualifications

- Language skills (the more languages you can speak the better)
